

# V Series

## Interactive Flat Panel of the Year

As the need grows for more collaborative workspaces, so does the demand for technology. Our complete all-in-one solution is easy to use, enables simple installation, and is designed for over 50,000 hours of use. With low maintenance and no ongoing subscriptions, Clevertouch provides a complete all in one solution.

## The complete all-in-one solution for a smaller budget

**Interactive Product of the Year**  
AV Awards 2016 – Winner

**Manufacturer of the Year**  
AV Awards 2015 – Winner

### Subscription free software to increase engagement

Our range of software is designed to engage and simplify the planning process. Share resources with others and make the most of pre-made activity templates.

Both Lynx and Snowflake MultiTeach are designed with input from end users, to enable seamless collating of media and resources to produce innovative lessons and meetings.

### Screen mirroring with built-in presenter controls

Clevershare App is free to download and compatible with Android, Windows, iOS and Chrome devices. Up to 50 devices can connect with the Clevertouch screen and share content – images, video, and audio.

The presenter has full control over what is shared, and can show up to 4 device screens simultaneously, increasing student collaboration and participation within every lesson.

### Making integration and installation easier

Clevertouch interactive touchscreens are designed to integrate with your current system set up and work with your current software.

With remote management tools, increased security and network options, and the most comprehensive warranty on the market, Clevertouch offers long-term savings and increased return on investment.

### A natural and fluid writing experience

Erase with your palm. Pinch and pull to zoom. Enjoy some great gesture controls with infinite whiteboarding.

Connecting people with technology

**NEW**

## Remote Management

Control all your screens from a single device.

## Annotation Tools

Allow you to annotate over internet browsers, documents, apps or desktop.

## Compatible

Compatible with **Windows**, **Mac OS X**, **MacOS** and **Chromebook**.

## No Software Subscription Fees

Lynx, Snowflake, DisplayNote

**NEW**

## Clevershare

Screen mirror with up to 50 devices on any platform.

## Note App

The instant whiteboarding app makes it easy to make notes, annotations, diagrams and drawings. Notes can be saved and sent out to the group.

## Over-the-Air Updates

**NEW**

Energy efficient

No software subscription fees

4K resolution display

No shadow

Remote management

OTA (Over the air) updates

Integrated speakers

Powered by Android

LUX user interface

Anti-glare glass

HDMI, VGA, RS232 and USB connectivity

## Remote Management (MDM)

Control multiple Clevertouch devices, wherever they are

The Clevertouch MDM system enables help desks, IT administrators and project leaders to centrally manage and support hundreds of Clevertouch devices, wherever they are. Reaching well beyond the local network boundaries, our Centralised Management System delivers a bird's-eye view of an entire device fleet, enabling administrators to give the best support possible with optimal conditions for decision-making.

Extend your support umbrella, control capabilities and manage Clevertouch screens wherever they are located and operating, both inside and beyond the organisation's network. Manage mission critical and complex IT infrastructures and simplify demanding operation and maintenance work on multiple devices.

### Control hundreds of Clevertouch devices remotely

- Create groups to make sure each screen has the most suitable apps and files for where it is used, such as C-Suite, Design Studios, Maths Class, Reception Class, corporate boardroom, huddle room, etc.
- Take control of the Clevertouch screen from your desktop
- Install APKs, policies and files
- Push messages directly to the Clevertouch display, ideal for security announcements
- Anti-theft module – Lock, unlock and reset displays
- Restart or shutdown multiple screen/s remotely by a single click
- Wipe the screen
- Run diagnostics

Optionally, Clevertouch MDM can serve as the basis for managing other devices in the organisation (Android, Windows, iOS and Chrome OS) from a single console, such as desktops, laptops, tablets and smartphones.

## Instant Updates (OTA)

Updates delivered instantly

The new Over-the-Air technology means that new features, bug fixes, software and hardware updates can be seamlessly delivered to every Clevertouch screen.

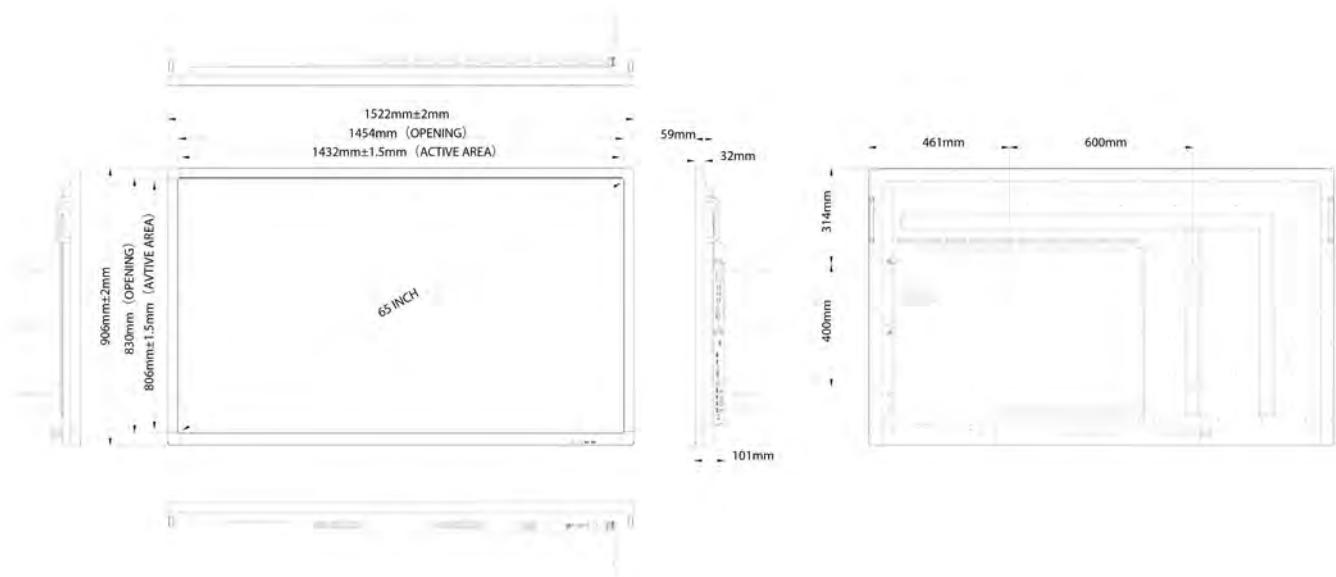

With just the click of a button the Clevertouch screen will search for the latest firmware update and install it, giving you instant access to the latest apps and features.

Patch fixes no longer have to be downloaded onto a USB and uploaded manually, giving IT Managers more time and less hassle.
